

**DESCRIPTION:**

Nickel Metal Hydride Rechargeable Battery,
9V Size

CHEMICAL SYSTEM:

Nickel Metal Hydride

SHELF LIFE:

Guaranteed for 500 recharges

NOMINAL VOLTAGE:

8,4 Volts

NOMINAL DIMENSIONS:

26.5(L)mm × 17.5(W)mm × 48.5(H)mm

TERMINALS:

Nickel plated miniature snap fasteners

JACKET:

Foil jacket

APPLICATIONS:

All electronics devices e.g. toys, microphones,
smoke detectors, photographic equipment.

STORAGE TEMPERATURE:

-20 °C to + 35 °C

NOMINAL WEIGHT:

50 g

BENEFITS:

- Most powerful rechargeable battery
- Super high energy
- Guaranteed for 500 recharges
- Ready to use, precharged
- Holds power up to 70% after 1 year once fully charged
- Cost savings and environmentally friendly

BATTERY HANDLING:

- Batteries are precharged
- Remove batteries from electrical device if the device is not going to be used for a long period of time
- Do not mix new batteries with semi-used batteries
- In order to maintain satisfactory cell/battery performance when being stored under an extended period of time, fully charging the cell/battery within 12 months period is highly recommended
- Battery should be stored in dry, cool, ventilated place. Keep away from heat source and fire. Temperatures outside the marked limit may result in reduced battery life.
